TABLE OF CONTENTS

LESSON 1: DOTS	3
LESSON 2: STRAIGHT VS CURVED LINES	4
LESSON 3: LINE ORIENTATION	6
LESSON 4: PARALLEL LINES	8
LESSON 5: GRIDS	10
LESSON 6: ANGLES.....	12
LESSON 7: WAVEFORMS.....	14
LESSON 8: CIRCLES.....	16
LESSON 9: HALF-CIRCLES	18
LESSON 10: CRESCENTS	19
LESSON 11: OVALS.....	20
LESSON 12: TRIANGLES.....	21
LESSON 13: HEARTS.....	22
LESSON 14: RECTANGLES.....	23
LESSON 15: SQUARES	24
LESSON 16: DIAMONDS.....	25
LESSON 17: PENTAGONS	26
LESSON 18: HEXAGONS	27
LESSON 19: OCTAGONS	28
LESSON 20: TRAPEZOIDS	29
LESSON 21: STARS	30
LESSON 22: SHAPE PATTERNS.....	31
LESSON 24: DRAWING A CYLINDER	32
LESSON 26: DRAWING A CUBE	33
LESSON 28: DRAWING A RECTANGULAR CUBOID	34
LESSON 30: DRAWING A TRIANGULAR PRISM	35
LESSON 32: DRAWING A CONE	36
LESSON 34: DRAWING A PYRAMID.....	37
LESSON 36: DRAWING A SPHERE	38

Lesson 1: Dots

Notebook Work: Practice drawing dots.

1. Draw a tiny dot, a medium-sized dot, and a large dot.
2. Draw more dots. Take a dot for a walk to make a line.
3. Create a picture out of dots.

Lesson 2: Straight vs Curved Lines

Notebook Work: Practice drawing straight and curved lines.

1. Draw a straight line.
2. Draw a line with a gentle curve.
3. Draw a line with an even bigger curve.
4. Draw a line that curves so much it crosses over on itself.
5. Draw two lines of different lengths.
6. Draw two lines of different widths.
7. Draw two lines of different textures. (continued next page)

8. Draw anything you wish, but incorporate at least one straight line and one curved line.

Lesson 3: Line Orientation

Notebook Work: Practice drawing straight lines at different orientations.

1. Draw a straight line.
2. Draw a straight horizontal line.
3. Draw a straight vertical line.
4. Draw a straight diagonal line.
5. Draw a straight diagonal line oriented in the opposite direction.
6. Make two small dots, and use a rule to draw a line to connect the dots. (continued next page)

7. Draw anything you wish using straight lines only.

Lesson 4: Parallel Lines

Notebook Work: Practice drawing parallel lines.

1. Draw a straight horizontal line. Draw a second straight horizontal line parallel to the first.
2. Draw a straight horizontal line and a straight vertical line that do not touch. Extend the lines until they cross.
3. Draw a straight horizontal line and a straight diagonal line that do not touch. Extend the lines until they touch. (continued next page)

4. Draw anything you wish, but incorporate at least one set of parallel lines.

Lesson 5: Grids

Notebook Work: Practice drawing grids.

1. Use a ruler to draw a set of at least 5 horizontal parallel lines.
2. Use a ruler to draw the same number of vertical parallel lines over the horizontal lines to make a grid.
Add dots and connect the dots with lines in a new color to create a line graph. (continued next page)

3. Draw anything you wish, but incorporate at least one grid.

Lesson 6: Angles

Notebook Work: Practice drawing angles.

1. Draw an angle, using a horizontal line and a vertical line. This is called a right angle.

2. Draw an angle, using a horizontal line and a diagonal line, where the angle is smaller than a right angle. This is an acute angle.

3. Draw an angle, using a horizontal line and a diagonal line, where the angle is larger than a right angle. This is an obtuse angle. (continued next page)

4. Draw anything you wish, but incorporate at least one angle.

Lesson 7: Waveforms

Notebook Work: Practice drawing waveforms.

1. Draw a sine waveform.
2. Draw a square waveform.
3. Draw a triangle waveform.
4. Draw a sawtooth waveform. (continued next page)

5. Draw anything you wish, but incorporate at least one waveform.

Lesson 8: Circles

Notebook Work: Practice drawing circles.

1. Draw a circle.
2. Draw smaller circles inside a larger circle.
3. Draw interconnected circles. (continued next page)

4. Draw a picture entirely out of circles.

Lesson 9: Half-Circles

Notebook Work: Practice drawing half-circles.

1. Draw a half-circle. Add an additional half-circle to make a full circle.

2. Draw anything you wish, but incorporate at least one half-circle.

Lesson 10: Crescents

Notebook Work: Practice drawing crescents.

1. Draw a crescent.

2. Draw anything you wish, but incorporate at least one crescent.

Lesson 11: Ovals

Notebook Work: Practice drawing ovals.

1. Draw a circle and an oval.

2. Draw anything you wish, but incorporate at least one oval.

Lesson 12: Triangles

Notebook Work: Practice drawing triangles.

1. Draw several triangles.
2. Draw anything you wish, but incorporate at least one triangle.

Lesson 13: Hearts

Notebook Work: Practice drawing hearts.

1. Draw several hearts.

2. Draw anything you wish, but incorporate at least one heart.

Lesson 14: Rectangles

Notebook Work: Practice drawing rectangles.

1. Draw several rectangles.

2. Draw anything you wish, but incorporate at least one rectangle.

Lesson 15: Squares

Notebook Work: Practice drawing squares.

1. Draw several squares.
2. Draw anything you wish, but incorporate at least one square.

Lesson 16: Diamonds

Notebook Work: Practice drawing diamonds.

1. Draw several diamonds.

2. Draw anything you wish, but incorporate at least one diamond.

Lesson 17: Pentagons

Notebook Work: Practice drawing pentagons.

1. Draw several pentagons.

2. Draw anything you wish, but incorporate at least one pentagon.

Lesson 18: Hexagons

Notebook Work: Practice drawing hexagons.

1. Draw several hexagons.
2. Draw anything you wish, but incorporate at least one hexagon.

Lesson 19: Octagons

Notebook Work: Practice drawing octagons.

1. Draw several octagons.
2. Draw anything you wish, but incorporate at least one octagon.

Lesson 20: Trapezoids

Notebook Work: Practice drawing trapezoids.

1. Draw several trapezoids.

2. Draw anything you wish, but incorporate at least one trapezoid.

Lesson 21: Stars

Notebook Work: Practice drawing stars.

1. Draw several 5-pointed stars.
2. Practice drawing another type of star, such as one with 4, 6, or 10 points.
2. Draw anything you wish, but incorporate at least one star.

Lesson 22: Shape Patterns

Notebook Work: Practice drawing patterns of shapes.

1. Copy the pattern as shown. Add the next shape in the pattern at the end.

2. Copy the pattern as shown. Add the next two shapes in the pattern at the end.

3. Draw anything you wish, but incorporate at least one repeating pattern of shapes.

Lesson 24: Drawing a Cylinder

Notebook Work: Practice drawing three-dimensional cylinders.

1. Draw several cylinders.

2. Draw anything you wish, but incorporate at least one cylinder.

Lesson 26: Drawing a Cube

Notebook Work: Practice drawing three-dimensional cubes.

1. Draw several cubes.

2. Draw anything you wish, but incorporate at least one cube.

Lesson 28: Drawing a Rectangular Cuboid

Notebook Work: Practice drawing three-dimensional rectangular cuboids.

1. Draw several rectangular cuboids.
2. Draw anything you wish, but incorporate at least one rectangular cuboid.

Lesson 32: Drawing a Cone

Notebook Work: Practice drawing three-dimensional cones.

1. Draw several cones.

2. Draw anything you wish, but incorporate at least one cone.

Lesson 34: Drawing a Pyramid

Notebook Work: Practice drawing three-dimensional pyramids.

1. Draw several pyramids.
2. Draw anything you wish, but incorporate at least one triangular pyramid.
